Master Admin role user management DATBP253-30

As a master admin I want to have the ability to see all data about users and edit them so I can maintain the user structure within Czechitas Application.

Only Master has access to manage users (Uživatelé).

New Master as well

child issues

Master role can:

- Delete/block users - see more details under DATBP253-14: Master admin/admin application edit TO DO
- See all registration data - DATBP253-13: Master admin - registration data TO DO
- Add new user - DATBP253-10: User Registration & Login process TO DO
- Modify user - DATBP253-7: Master admin - edit user QA IN PROGRESS

Master admin can modify following information about existing users:

- Name
- email
- role - master, admin, parent
- Password - master user can change users password.

Only Master access tests

DATBP 253 - 30

more under DATBP253-7: Master admin - edit user QA IN PROGRESS

Is it really should be in Admin Section?

"V administraci je dostupná sekce s přehledem uživatelů".

Administrátoři aplikace jsou schopni také uživatele vytvořit a editovat všechny údaje uživatele včetně hesla.
